CONTENTS OF VOLUME 11

Number 1, 1983 March

REVIEW ARTICLE

1  C. J. Salter, Loop I (the North Polar Spur)—A major feature of the local interstellar environment

RESEARCH PAPERS

38  V. K. Verma and M. C. Pande : Double ribbon flare of 1981 October 19
44  Ram Sagar, U. C. Joshi and S. D. Sinvhal : Integrated photometric parameters of open and globular clusters
56  Udit Narain : On the temperature distribution along a solar flare loop.
63  Ghanshyam A. Shah : Phase retardation of light due to scattering by interstellar nonspherical grains
70  V. K. Verma : Twisted surge of 1981 December 25
75  P. Vivekananda Rao and M. B. K. Sarma : Period study of the short period RS CVn type eclipsing binary UV Piscium
82  Abstracts of papers presented at the eighth meeting 1982 November 3–6 at Gorakhpur
101  NOTES AND NEWS
104  NOTES FOR THE OBSERVER

Number 2, 1983 June

REVIEW ARTICLE

117  C. Sivaram : The neutron in astrophysics

RESEARCH PAPERS

138  M. Singh and S. C. Joshi : Photometric observations of BW Vulpeculae
145  H. S. Zafarullah, K. S. V. S. Narasimhan and K. Shankara Sastry : Stellar velocity perturbations in colliding galaxies
159  V. K. Verma : On the activation of a quiescent prominence
163  Corrigenda—K. K. Scaria : Integrated brightness and colour of Omega Centauri
